Crisishub.io

1. Responsive design
2. Fix CSS on index page
3. Remove the word "Footer" from footer of "register" and "login" pages
4. Popups/modals for messages such as "Event sent to admin team for approval"
   a. When adding an event
   b. Adding a contribution
   c. Reporting an event
5. Fix problems
   a. Points
      i. When an event is added, the points are not added to the user's account
   b. Profile pictures cannot be added (due to a placeholder image I put in during first Azure development stage)
   c. Numbers of contributions on events
      i. When a contribution is added to an event the number on the marker does not change, it is supposed to increase to show the number of contributions on each event.
6. Edits on contributions and event posts need to be approved by admins
   a. Edit sent to admin team pending approval
7. Add more media files than one for each type of post (event or contribution)
8. Fix email sending when registering
9. Error messages on Register page
   a. Passwords do not match
   b. Emails do not match
   c. Username already taken
10. Report posts- I removed this on some pages for purposes of the demo can you add them back
11. Admin functions
    a. Delete posts
    b. Lock accounts (on view account page)
